# Let's Get Real About Money Matters, Because Money... Really...Matters

**Presented by PROVO Wealth Management Group\***

**January 22, 2020, 8:00am-10:30am  
held at Asa Waters Mansion, Millbury**

Women face a unique set of financial challenges, including a significant disparity in lifetime earnings and the need for our earnings to fund a longer lifetime. Because we've been left out of financial conversations, we also have less confidence in investing our money.

Knowing how to invest and plan for the future is critical to achieving our financial security. This morning program will provide a roadmap for making your money work as hard as you do, helping you gain confidence and empowering you to take control of your financial future because money really matters.

\*Securities offered through Securities America, Inc., member FINRA/SIPC. Advisory services offered through Provo Wealth Management Group. Provo Wealth Management Group and Securities America are separate entities.
